Title: Unraveling the Neurological Impact of Air Pollution.

Authors Name: AAAAAA, BBBBBB, CCCCCC.

I/We hereby intend to submit a research article/review article for publication in the Pharma Research Bulletin, published by Eduspread Publications. This work explores the multifaceted impact of air pollution on neurotoxicity, integrating mechanistic insights from experimental research with epidemiological evidence to provide a comprehensive understanding of this critical issue. Given the increasing global concern about air pollution and its adverse health consequences, particularly on the central nervous system, our study offers novel perspectives that align with the journal's focus on Neurological health. In addition, the content of the manuscript is original and has not been published or accepted for publication, in whole or in part, in any form. Furthermore, no portion of the manuscript is currently under consideration for publication elsewhere. All authors have approved the manuscript and declare no conflicts of interest.

We look forward to your valuable feedback.

Thank you.

Yours Sincerely,
